00/ PROFILE

SUMMARY

IT support professional with 5+ years of technical support, escalation ownership, and team leadership, plus hands-on hardware work.

01/ CORE COMPETENCIES

FOCUS

- Hardware diagnosis & repair
- PC builds & upgrades
- Drive cloning, imaging & backup
- Network troubleshooting
- Ticket triage & prioritization
- Escalation ownership
- On-site & remote support
- End-user training
- Technical documentation
- Vendor & engineering coordination
- Mentoring & team leadership

02/ PROFESSIONAL EXPERIENCE

WORK

Owner & Technician · Pixel Patcher

AUG 2025 – PRESENT

Roanoke, VA · pixelpatcher.com · Mobile PC repair & IT services

> Diagnose and repair desktops and laptops on-site for residential and commercial clients, covering hardware faults, failing drives, slow or unstable systems, and OS problems.
> Perform SSD and HDD upgrades with drive cloning and data migration, RAM upgrades, and pre-service backups so no client data is lost during repair.
> Restored workstations to service for two commercial clients, coordinating repair work around business hours.
> Run the full service lifecycle: intake, diagnosis, repair, invoicing through Square, and follow-up support, with a self-hosted RustDesk relay for secure remote sessions.
> Set up the business end-to-end, including licensing, general liability insurance, payment processing, and branded customer documents.

Software Support Analyst · AbsenceSoft

JAN 2023 – JUL 2026

Denver, CO (Remote)

> Owned a variety of technical issues for enterprise customers, tracing issues across application workflows, configuration, logs, and third-party integrations to root cause.
> Triaged and prioritized incoming tickets, resolved within SLA targets, and escalated defects to engineering through Jira with reproducible steps and scoped customer impact.
> Wrote troubleshooting runbooks, user guides, and knowledge-base articles that reduced repeat contacts and shortened new-hire ramp-up.
> Built internal support tools on the Claude API for ticket triage, reply drafting, and escalation packaging.
> Consistently exceeded team KPIs for ticket-closure volume, ticket quality, and customer satisfaction.

Support Team Lead · Binance.US — JUL 2021 – DEC 2022

San Francisco, CA (Remote)

> Led a team of ~8 support analysts handling escalated, time-sensitive cases on a regulated US cryptocurrency exchange, cutting average ticket resolution time by 65%.
> Mentored analysts through structured case review, regular feedback, and individual development plans; served as the escalation point for complex cases.
> Built onboarding and training programs and maintained the knowledge base the team used for day-to-day troubleshooting.

PowerSchool — NOV 2018 – JUN 2021

Roanoke, VA

Implementation Project Manager — DEC 2019 – JUN 2021

Online Solution Specialist — NOV 2018 – DEC 2019

> Managed SaaS rollouts for K-12 school districts from configuration through go-live, keeping projects on schedule and working with district IT and internal engineering to resolve integration issues.
> Trained administrators, teachers, and IT staff, adapting delivery to a wide range of technical comfort levels; promoted to Implementation Project Manager in Dec 2019.

03/ BUILD — HANDS-ON LAB

Home network & self-hosted infrastructure `// voidlab`

Hardwired home network with a Raspberry Pi edge node running Pi-hole DNS filtering with encrypted upstream DNS, Nginx Proxy Manager with Let's Encrypt SSL, Uptime Kuma monitoring, and CrowdSec intrusion prevention in Docker. Tailscale mesh VPN for remote access behind CGNAT, automated Restic backups across machines, and a dedicated Home Assistant appliance running a Zigbee device mesh.

PiPulse `// network telemetry appliance`

ESP32 touchscreen device with custom C++ firmware that polls the Pi-hole API over Wi-Fi to display DNS query volume, block rates, and active-device stats.

NIXKEY `// bootable USB tooling`

Bootable Linux USB drives with shell scripts that verify and flash multi-distro images.

04/ STACK — TECHNICAL SKILLS

HARDWARE	Desktop & laptop repair, PC builds, SSD/HDD/RAM upgrades, drive cloning, Raspberry Pi, ESP32
NETWORKING	TCP/IP, DNS, DHCP, VPN (Tailscale), reverse proxy, SSL/TLS, LAN troubleshooting
OS / SHELL	Windows 10/11 desktop support, Linux (daily driver), Bash, Git
SERVICES	Docker, Pi-hole, Nginx Proxy Manager, Uptime Kuma, Home Assistant, systemd
SUPPORT	Jira, Salesforce, Zendesk, RustDesk, knowledge-base authoring, SSO/SAML troubleshooting
SCRIPTING	Python, Bash, SQL, JavaScript

05/ CREDS — EDUCATION & CERTIFICATIONS

Google IT Support Professional Certificate — GOOGLE

Coursework in hardware, networking, Windows and Linux system administration, Active Directory, and IT security.

B.S. English Literature — RADFORD UNIVERSITY
